

Duke Chijimaka Jonathan

Full-stack developer · AI automation specialist · Remote, UK-wide
buildwithduke@outlook.com · +234 915 215 1634 · github.com/build-with-duke

Product-minded full-stack developer combining web engineering, workflow automation and information-systems discipline. Experienced in shipping Cloudflare-hosted products, custom admin systems and agentic workflows with measurable operational outcomes.

Selected outcomes

- Reduced manual workload by up to 65% through workflow automation.
- Supported 73% lead growth with clearer digital acquisition systems.
- Built campaign infrastructure supporting 1M+ views in seven days.
- Reached 99% data integrity in evaluated cataloguing records.

Outcome figures are Duke's reported project results.

Core stack

React

TypeScript

Cloudflare

n8n

Node.js

Python

D1

Drizzle

AI agents

Services

- Websites and web applications
- AI and n8n automation
- Admin and CRUD systems
- Systems and performance improvement
